LETTER OF INTENT (LOI): B2B PILOT TESTING & LICENSING

DATE: September 06, 2026

PARTNER:[Partner UK Packaging / FMCG Company Name]

1. INTENT OF AGREEMENT: The undersigned partner expresses a formal expression of interest to test, validate, and evaluate proprietary bioplastic formulations designed by BioMatX AI Technologies Ltd.

2. TECHNICAL FOCUS: The pilot trial will target high-barrier bio-polymer formulations derived from local agricultural waste streams (including Cassava Processing Waste and Brewery Spent Grain).

3. ASSET-LIGHT LICENSING MODEL: Upon successful lab validation, the Partner intends to enter negotiations to license BioMatX formulation IP for commercial manufacturing using existing UK plastic production lines.

4. NON-BINDING NATURE: This Letter of Intent represents a commercial expression of mutual interest and pilot testing commitment for visa endorsement and commercial validation purposes, but does not constitute a legally binding purchase obligation until a final Master Licensing Agreement is executed.

EXECUTED AND ACKNOWLEDGED BY:
